## **INTRODUCTION**

Welcome to the Concur Expense System at Arkansas State University! We are excited to introduce this system to you, which is a result of the partnership between A-State and SAP Concur. Throughout this guide, you will find instructions to lead you through the entire Expense process, from logging into the system to submitting your report.

Please direct any questions about the system to a travel representative or the e-mail address [travel@astate.edu](mailto:travel@astate.edu). We will work within our office and with others on campus to answer your questions as soon as possible.

## **LOGGING INTO CONCUR**

- Login to [my.AState.edu](http://my.AState.edu)
- Click on the Travel icon.
- Concur should automatically log you into the system.
- Alternatively, you can navigate to [www.concursolutions.com](http://www.concursolutions.com) and type in your e-mail address in the User Name field and your Concur password in the Password field.
  - If this is your first login, please contact Eric Jones (2005) or Traci Ellington (3261) for your initial password.
  - This password is not your A-State password and will not sync together.
  - We recommend that you change your Concur password at the same time you change your system password.
- If you cannot login, please contact our Security Administrators at [cpi-security@astate.edu](mailto:cpi-security@astate.edu).

## MAIN MENU

The main menu in Concur allows the user to access travel request, expense reports, and approvals, as well as view available expenses and upload receipts. In this guide, we will focus on the expense portions.

The toolbar across the top of the page consists of links to the different areas of Concur and your profile. Under “Help” you can access the Concur training information provided by SAP Concur.

Requests takes you to the Manage Requests page that defaults to all open requests within the last 90 Days. Change the view options to see older requests.

Expenses takes you to the Manage Expenses page that shows all in process expense reports, any available expenses, and uploaded receipt images. Click Report Library to see all open expenses reports within the last 90 Days. Change the view options to see older expenses reports.

Approvals (approvers only) takes you to the Approvals Home page that will show you a tab for each document type of approvals that can be done in Concur and the number of documents waiting on your approval.

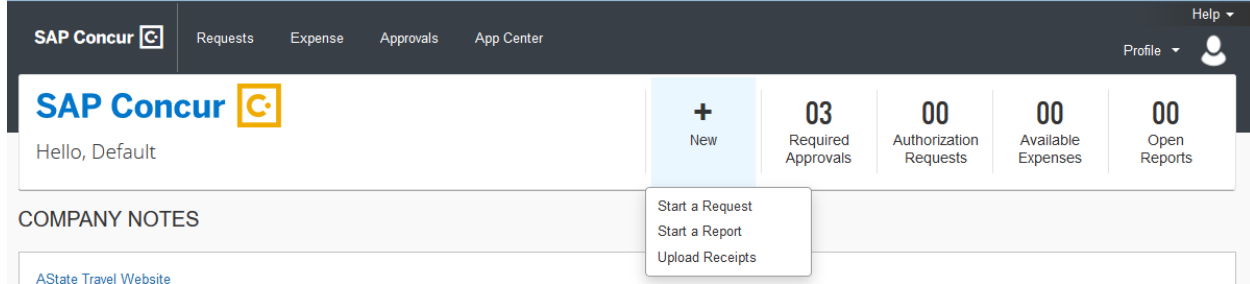

We currently do not use the App Center page. To return to the main menu click on the SAP Concur link in the top left corner.

The main menu is divided into 3 sections –

The top section gives you quick access to start a travel request, expense report, or upload receipts.

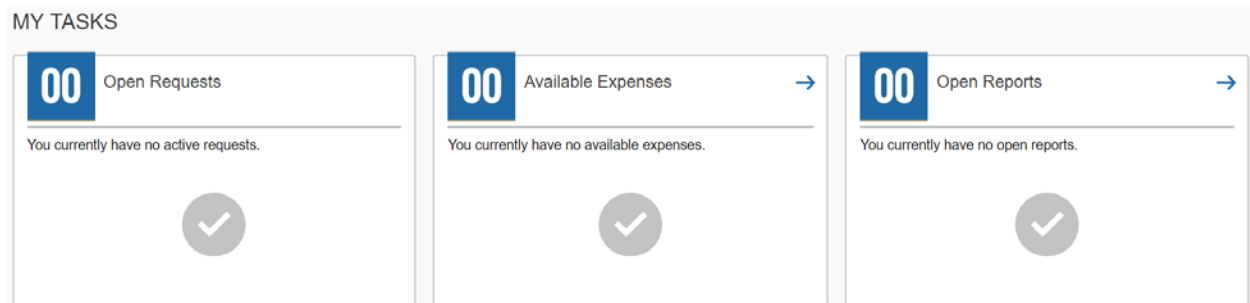

Or hovering over “New” to see the options:

The second section gives you a message from A-State’s Travel Office. This message can change, but there will be a link to the Travel Office website.

The third section shows you the open requests, available expenses, and open reports. For approvers, this section shows required approvals, available expenses, and open reports.

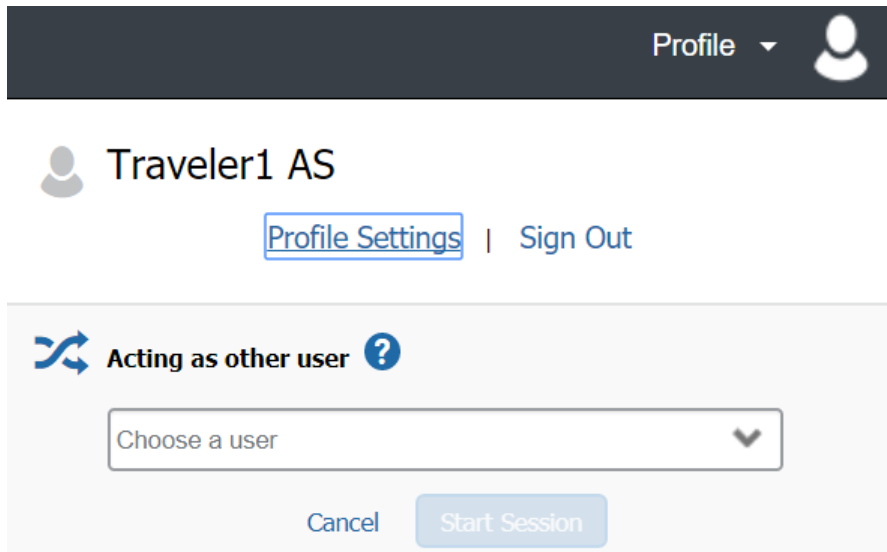

## **HOW TO START A SESSION AS A DELEGATE**

At the top of the main menu, click on the Profile drop down arrow:

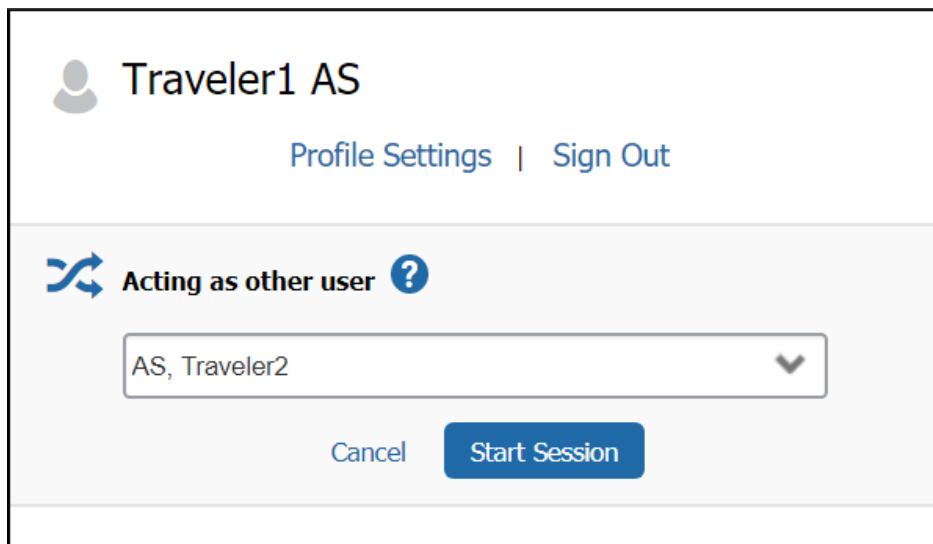

Concur will bring up a space for you to use the drop down to search or type in the name of the traveler:

For delegates with multiple travelers, if a list does not appear start typing in the last name of the traveler.

Choose the appropriate traveler, and click the “Start Session” button:

Your screen will now show that you are working as another person:

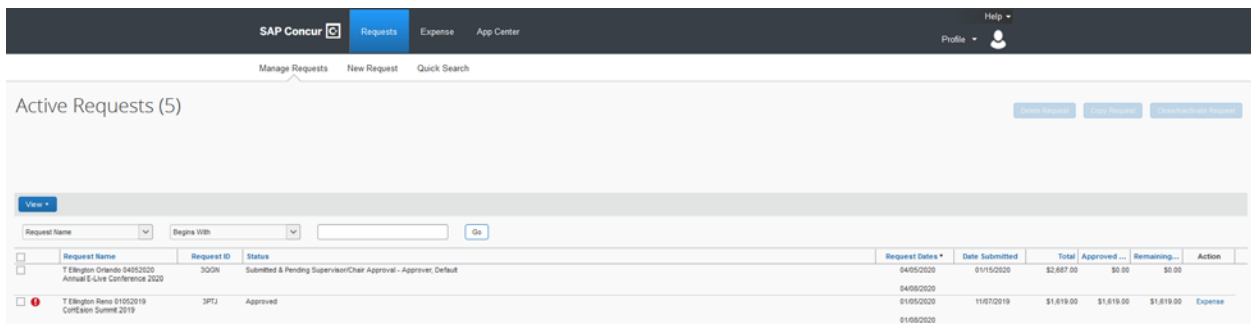

When you are ready to stop being a delegate for the traveler, click on the green button, and choose “Done acting for others”.

## **STARTING AN EXPENSE REPORT FROM A REQUEST**

After you login to Concur, click on the Requests link, which will take you to your Active Requests list. Find the Request for the trip you have just completed, and click on the “Expense” link under the Action column:

If you do not see the Request in the Active Requests list, click on the View button and select “All Requests” from the dropdown menu.

Note: All travel reimbursements and T-Card reconciliation expense reports must have a request associated with them.

## **HEADER TAB**

The Header will include most of the information you entered in the Request Header. Make any changes that are necessary, and include a brief description of

the business purpose of your travel in the Additional Information field. Select “No” for the “Is this for Department Card Charges?” field.

Please indicate in the “Final Expense for Attached Request?” field if this is the last Expense Report for the Request Report. The default funding source will come from the traveler’s profile, update if necessary.

## ITINERARY SCREEN

Note: if you have done a previous expense report for the same trip, by pass the Create New Itinerary part by clicking the “Next” button at the bottom right corner of the window.

For the first “New Itinerary Stop”, fill all the fields. The Time fields are required, for a single destination trip you can enter 8 AM to 5 PM. The specific time only matters when having to record multiple stops. Also, for a single destination trip do not include the stops between leaving the home location (i.e. Jonesboro) and arriving at the destination. Such as, having to travel to Memphis Airport to fly to the final destination. Only enter the departure location and the final destination location.

**Notice this is the first day of travel only, not the entire trip.** Once you complete the first day, click the “Save” button, then fill out the “New Itinerary Stop” for the next time you will go to another city. For most cases, this will be the last day of travel, but you could have more than two Itinerary Stops if there will be multiple

stops in your trip. Once you have completed all of the Itinerary Stops, click on the “Next” button at the bottom right corner of the window.

The next screen will show you the itinerary you just entered, and if it is correct, press the “Next” button at the bottom right corner of the window.
