

Results from Prior NSF Support

Last updated: May 10, 2024

Useful links:

- [NSF 24-1 Proposal and Award Policies and Procedure Guide \(PAPPG\)](#)
- [Results from Prior NSF Support section of the PAPPG](#)

The Results from Prior NSF Support section is limited to five (5) pages within the 15-page Project Description. Results may be summarized in fewer than 5 pages, which would give the balance of the 15 pages for the Project Description. Specific NSF funding solicitations may not require this section or may have alternate instructions; please refer to the solicitation instructions for guidance.

The purpose of this section is to assist reviewers in assessing the quality of prior work conducted with prior or current NSF funding. If **any PI or co-PI** identified on the proposal has received prior NSF support including:

- **an award with an end date in the past five years; or**
- **any current funding, including any no cost extensions,**

Information on the award is required **for each PI and co-PI**, regardless of whether the support was directly related to the proposal or not. In cases where the PI or any co-PI has received more than one award (excluding amendments to existing awards), they need only report on the one award that is most closely related to the proposal.

Support means salary support, as well as any other funding awarded by NSF, including research, Graduate Research Fellowship, Major Research Instrumentation, conference, equipment, travel, and center awards, etc.

The following information must be provided:

(a) NSF Award number, amount, and period of support

(b) Title of the project

(c) summary of the results of the completed work, including accomplishments supported by the award. Results must be separately described in two distinct headings: **Intellectual Merit and Broader Impacts**.

(d) List of publications resulting from the NSF award (a complete bibliographic citation for each publication must be provided either in this section or in the References Cited section of the proposal). If none, state “No publications were produced under this award.”

(e) Evidence of research products and their availability, including but not limited to data, publications, samples, physical collections, software, and models as described in a Data Management & Sharing Plan

(f) If the proposal is for renewal support, a description of the relation of the completed work to the proposed work.

If the project was recently awarded and therefore no new results exist, describe the major goals and broader impacts of the project.
